It's just one of THOSE days...

The Gabby Cats are preparing to celebrate their first Purrs-Day with Marty the Party Cat by surprising their human friend: Gabby, with the BIGGEST Purrs-Day party yet, while she's visiting Pete the Polar Bear and his Rainbow Igloo for an nice hot cup of cocoa with teeny tiny marshmallows in it. Cakey & Kico the Kittcorn are baking, mixing and cooking tasty treats, Marty & Kitty Fairy are putting up cat themed decorations, Baby Box & The Box Family are crafting cat themed decorations, DJ Catnip is mixing up some groovy tunes, Catrat is finding the purr-fect hiding places to surprise Gabby, Pillow Cat is fluffing her finest pillows (if she can stay awake long enough, that is.), Carlita is picking the funnest games to play, & Mercat, who has taken the job of "Party Planner this year, has given Pandy Paws the most important job of them all, yet: Checking the Dollhouse Deliveries for any dirt and dust so they can look their cleanest for the big day. Pandy feels a little annoyed by this, hoping for a much bigger task. But during night time, while the Gabby Cats were sleeping, 4 mysterious evil looking black shadows creatures, (Who look REALLY familiar...) coming out from a red & black portal, destroyed the decorations, took the Dollhouse Deliveries, snached the batteries for the TV remote, and worst of them all: CAT-napped all of the Gabby Cats inside the dollhouse (Expect for Mercat, DJ Catnip & Catrat) AND Gabby, herself, before hopping back in the mysterious red & black portal, taking the Dollhouse Gang with them!

DUN-DUN-DUU UUUUUUUUN!

The Next Day, Purrsday Morning

Mercat alarmingly wakes up a sleeping Pandy who, like the other remaining, was SHOCKED to see what a mess the Dollhouse became, and the others (& The batteries for the TV remote) were nowhere to be found! But not until a evil shadow like creature with a evil-(Yet stylish!)-looking crown name King Shadowling, and his army of loyal Shadowlings, calling the Gabby Cats on the DJ booth screen demanding that they join his evil army so they can do mean, selfish things together, or he'll suck the positivity from their wrongfully caged friends and Dollhouse Deliveries with his "Shadowling Maker 8000TM", powered by the TV remote batteries, which Pandy needs so he can surprise her with "The Captain Meowatude Season 14 Finale Marathon", and make an army of Gabby Cat Shadowlings & use their awesome feline abilities, so he can TAKE OVER THE WORLD WITH INTERNAL DARKNESS!!!! Unfortunately, one of the Shadowlings accidentally made a "Whoopsies" & pulled a level that released the Gabby Cats & Dollhouse Deliveries into different parts of the Dollhouse World, so King Shadowling demanded that his Shadowlings find his "quests" and suck their positivity like vampires do before the Gabby Cats get the same idea. Shocked and enraged by this unfair act of meanness, Pandy & his crew; Mercat, DJ Catnip & "The" Catrat, decided to go after their friends (& The Tv remote Batteries) to save them before the Shadowlings do, in a desperate race to save Purr-Day!

But can they do it before it's to late? Or will the Dollhouse World be consumed by evil Darkness (*Gulp*) FOREVER?

Some of these meanies can fly, some can swim, some can smash you into little bits, & some can even set your tail on fire! So be careful and look for a weakness to stop them. But ARE they really evil, or just misunderstood, insecure and mostly jealous?
